#### **DETAILED ACTION**

### Reasons For Allowance

- 1. Claims 46-65 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach the claimed invention of forming a composite signature, as claimed by applicant. Specifically, independent claims 46 and 65 disclose "training a first *neural network* based on the first *signature* and the distinct second *signature*".

The closest prior art of Hunt et al (U.S. Patent Number 5,365,574; Dated 11/15/1994; Class 379; Subclass 88.02) combined with Gillick et al (U.S. Patent Number 4,837,831; Dated 06/06/1989; Class 704; Subclass 245) teaches the use of multiple signatures in classifiers but fails to teach the training of neural networks with the multiple signatures. The art cited by Examiner does not show this feature. Only to the extent that the prior art cited by Examiner fails to show these features, claims 46-65 are allowed.

Art Unit: 2122

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
